Summary

BSIT graduate with a strong foundation in UI/UX design and web development. Skilled in creating user-friendly interfaces, system assessments, and collaborative project work. Experienced in prototyping, quality assurance, and team collaboration. Eager to contribute technical and design expertise while continuing to grow in web development and programming.

Work Experience

Junior Programmer (Technical Service Provider)

Bicol University

Oct 2025 – Present

- Conducted assessments from existing systems to identify issues and gathered requirements from university offices.
- Designed user flows, wireframes, and interactive prototypes of COE Self-Assessment Tool and Merit System Promotion based on client needs.
- Collaborated with a six-member dev team, assisting in documentation, quality assurance, and testing to ensure applications run smoothly.

Tutor

CMB Review and Tutorial Center

Aug 2025 – May 2026

- Provided personalized tutoring in HTML5, Java and C language, using beginner-friendly activities tailored to the learner's pace and understanding.
- Guided students through hands-on activities and tracked progress to strengthen problem-solving skills.

UI/UX Designer

Bicol University – University Student Council

Aug 2024 – Mar 2026

- Served as Lead Designer for the BU USC Website, overseeing design consistency and usability.
- Supervised mentees to ensure project milestones are met efficiently.
- Collaborated with stakeholders to align design with project goals and system requirements.

UI/UX Designer Intern, Software Development Team

Bicol University Information and Communications Technology Office

Feb 2025 – May 2025

- Designed user interfaces of systems including iBUSIS (Admissions), BU Online Voting System, and LibCheck and assessed client needs.
- Collaborated closely with mentors in completing project modules and assisted in frontend development.
- Created graphics and announcements for the office's Facebook page to aid communication with students, faculty, and other offices within the university.

Projects

BU E-Receipt System v.2

May 2025

Organizational Project — <https://bu-e-receipt.com/>

- Assessed version 1 of the system, identifying issues faced by students and finance officers.
- Designed the user interface for version 2, improving user flows and ensuring consistent design and functionality.
- Worked directly with stakeholders to align system design with project goals and requirements.

Online Voting System

May 2025

Internship — <https://systems.bicol-u.edu.ph/ovs/>

- Redesigned the online voting system, improving design consistency and visual presentation across platforms
- Assessed user flows and developed prototypes to streamline navigation and improve usability for a more intuitive voting experience of students.

BU USC Website

Mar 2025

Organizational Project — <https://bu-usc.com/>

- Translated client requirements into a new website interface design that aligned with project goals.
- Led the UI/UX design team, ensuring design consistency and usability.
- Coordinated with clients to confirm that system features matched their goals and expectations.

Inventory and Sales Invoice Application

Dec 2022

Academic Requirement

- Worked in a two-person team to develop the application, focusing on design and handling of UI assets and assisted in implementing other system functionalities.
- Tools used: Java for development, and Adobe Photoshop for editing assets

Skills and Interests

Languages: HTML/CSS, PHP, Java, Python, JavaScript, C
Frameworks: Bootstrap, Tailwind CSS, React JS, Laravel
Software: Visual Studio Code, NetBeans, Figma, Penpot, Canva, Notion, GSuite, MS Teams, Adobe Photoshop
Interests: User Interface Design, User Experience, Frontend Development, Graphic Design

Organizations

- UI/UX Designer, Research and Development Committee**
Quarta BU July 2024 – July 2025
- Led UI/UX design for the organization’s core project, the BU E-Receipt System.
 - Collaborated with systems analysts and project managers to align design with project goals and system requirements.
- Junior Councilor, Public Relations Committee**
BUCS Circle of Unified Information Technology Students (CircUITs) Sept 2021 - June 2023
- Created graphics and announcements for the organization’s social media platform
 - Led the Creative Team for a major event for two (2) consecutive years, CSIT Days 2022 and 2023

Education

Bicol University Aug 2021 - June 2025
Bachelor of Science in Information Technology
